

This drawing is protected under Copyright and no part of it is to be reproduced without permission of squaredot. All dimensions to be checked on site. Do not scale from this drawing.

Significant hazards relative to the architectural design shown on this drawing have been assessed and highlighted with reasonable skill and care using a warning triangle system.

This drawing is to be read in conjunction with all other hazards/risks which have been identified and recorded within the construction phase H&S plan.

It is assumed that all works on this drawing will be carried out by a competent contractor working, where appropriate, to an approved method statement.

Significant hazards are defined as: -
 Those not likely to be obvious to a competent contractor or other designers.
 Those of an unusual nature.
 Those likely to be difficult to manage effectively.
